ON 15 NOVEMBER the leaders of the 20 most powerful nations will meet in Washington to decide global economic priorities.

Instead of their agenda of bailing out the banks and shoring up profits, we call for a united campaign to save jobs, defend living standards and oppose war.

At this meeting the platform speakers will be joined by activists engaged in issues such as housing, climate change, pensions, students, defence of the NHS, global poverty and union rights.

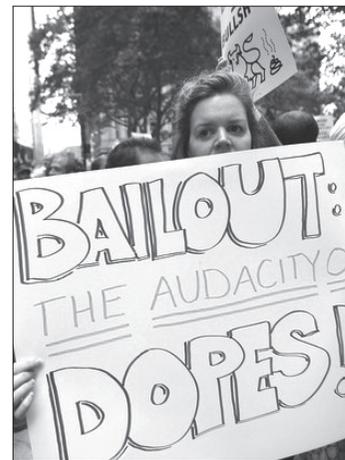

Let's make this a tribunal of the system that has failed the vast majority of the world's population.

**Monday 24 November, 7pm,  
@ ULU, Malet Street, London WC1E 7HY**

*Called by UCU London region. Supported by FBU London region, John Denton (CWU London Secretary, pc), Mark Baulch (CWU NEC, pc), People Before Profit Charter and activists in the FBU, PCS, NUT and other unions.*
